- Set fixed dialled numbers
- Microsoft ME, 2k, XP and Vista compatible

Overview

The LM023 is a professional SIM card management tool for home, office and professional use. Its offers full access to the SIM card, giving the user increased control.

This product has many applications for the following customers :-
Spy companies, police, private investigators, general public, corporate companies and many more.

Due to the extensive range of mobile phone handsets and the way these handsets manage SMS text messages, we can not

guarantee that the LM023 will recover data from every SIM card.

However we have recovered a substantial amount of deleted text messages from all the SIM cards tested and therefore approved the product or sale.

If a SIM has been locked with a SIM PIN, you will have to know the PIN Code in order for te LM023 to work.
